**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

America strongly needs broadband competition. I chose a competitive provider, Sonic Net, because I wanted better service, better choices and a promise for net neutrality. The "standard" choices between AT&T and Comcast yields only obscure charges with arbitrary changes muddled in legalese that obviously benefits only AT&T and Comcast. Sonic has customer-friendly language people can understand.

Strong broadband supports strong growth in American unlike almost any other technology. And strong technology provides a necessary ingredient for our future.

Approving the USTelecom petition is a huge step backwards for competition and for consumers.
